PROFILE

Frontend Developer with hands-on experience building and integrating user-focused web features using modern frameworks. Passionate about crafting clean, responsive interfaces and collaborating in fast-paced environments. Strong foundation in JavaScript, React.js, Next.js, and version control, with proven ability to deliver under pressure and contribute to real world digital solutions.

TECHNICAL SKILLS

- **Frontend:** Next.js, React.js, Vue.js, JavaScript, HTML5, CSS3
- **Tools & Platforms:** GitHub, Trello, Microsoft Teams
- **Core Competencies:** Responsive Design, API Integration, Error Handling, Authentication Flows, Dashboard Features, Cross Browser Compatibility

WORK EXPERIENCE

Frontend Developer Intern: Karisimbi Tech, Rwanda

May 2023 – September 2023

- Developed and integrated a secure login feature for the XanaHealth platform using Next.js and Fetch API, meeting a tight deadline and ensuring successful deployment for over 10 hospitals across Rwanda and Uganda.
- Built and connected user management dashboard features including user deletion and edit modals to backend APIs, improving administrative workflows and user experience.
- Independently executed assigned features while actively collaborating on team code reviews through GitHub to maintain high quality code

standards.

- Utilized Trello for task tracking and Microsoft Teams for communication, ensuring smooth project coordination.
- Received team recognition for delivering critical features under pressure.

Software Engineering Trainee: AltSchool Africa, Nigeria

January 2022 – July 2023

- Gained strong grounding in computer science fundamentals, data structures, and algorithms.
- Led the frontend implementation of a telecom network detection web app with a team of 5, handling component development, logic integration, GitHub workflow management, and team coordination.
- Built and deployed several frontend projects including an online shoe store (ngato.netlify.app), which received positive user feedback (8/10).
- Collaborated with global peers to build and deploy React and HTML/CSS based apps, strengthening teamwork and communication skills.

ACHIEVEMENTS AND RESPONSIBILITIES

- Assisted in the development, testing and maintenance of web applications.
- Collaborated with cross-functional teams for requirements gathering and interface design.
- Led a team of 5 members from my school group to develop a simple web app using HTML, CSS and Javascript which was able to detect which telephone network a user was assigned to just by inputting their telephone contact and helped 50% of the students get to know their telecom networks.
- Developed and hosted an online shoe store (<https://ngato.netlify.app/>) which garnered an 8/10 score as feedback from the people i shared it with.
- Built and deployed my personal portfolio which greatly increased my frontend development knowledge by 30%.

-
- Became a circle lead which helped increase productivity among my team members by 40%.

SOFT SKILLS

- Knowledge of responsive design, accessibility, and cross-browser compatibility
- Strong problem solving and critical thinking skills
- Team collaboration and leadership
- Eager and quick learner
- Excellent written and verbal communication skills
- Adaptable in fast-paced environments
- Familiar with modern web development tools and frameworks.
- Proficient in HTML, CSS and Javascript.
- Experience with version control systems especially Git.

LANGUAGES

- English (Fluent)

EDUCATION

Alt-School Africa, Nigeria - *Diploma*

JANUARY 2022 - JULY 2023

Software Engineering.

Makerere University Business School, Kampala, Uganda - *Degree*

AUGUST 2017 - MAY 2022

Bachelor of Procurement & Supply Chain Management.
